WELCOME TO THE
WORLD OF
OPPORTUNITIES

**Gyan
Ganga**
GROUP OF INSTITUTIONS
Committed for Excellence

Vision

Initially to seek autonomy and eventually grow the Group into a renowned University by:

- Imparting the best technical and professional education to the students.
- Developing all the Institutes of the Group as Centres of Excellence.
- Creating the most congenial and cordial environment of Teaching, Learning and Research.
- Conceiving world-class Education, Ethics and Employability for students in a global perspective.

Mission

To explore and ensure the best environment to transform students into creative, knowledgeable, principled engineers and managers compatible with their abilities in the ever-changing socio-economic and competitive scenario, by:

- Imparting intensive teaching and training using the latest technology.
- Motivating the teachers for higher learning and innovative research activities along with social services.
- Generating maximum opportunities for placement of students in National and Multi-National companies and nurturing entrepreneurship quality.
- Producing highly intellectual citizens through technical education to constitute an ideal society and for meeting social challenges.

ABOUT US

At Gyan Ganga, we are dedicated to create knowledge leaders and create technocrats of tomorrow through whom we aim to build the golden future of India. As one of the largest group of institutions of its kind in Central India, we are in an enviable position, with a commitment to further enhance our leadership stance.

We are also committed to the application of knowledge for the welfare of humanity, with emphasis on combining learning and doing, through subtle synthesis of liberal and professional education.

Gyan Ganga Institutions, which have been striving to bring in world class education to Central India since 1992, have travelled a long way and have created a niche for itself and a name to reckon with. The group has seven Institutes under its flagship having courses in the areas of Engineering, Management, Computer Application, Information Technology, School Education etc. All these disciplines are focused on delivering quality education through the process of continuous learning.

Gyan Ganga College of Technology (GGCT)

Under Graduate Courses

Branches	
Computer Science & Engg. [CS]	180
Electronics & Commn. Engg. [EC]	120
Mechanical Engg. [ME]	60
Electrical & Electronics Engg. [EX]	60
Civil Engg. [CE]	120

Total 540

Post Graduate Courses

Branches	
M.B.A.	60
M.C.A.	60
M.Tech.	
Computer Technology & Application	36
Digital Communication	18
Power System	18

The Leadership

He is an eminent Engineer and Social Worker. He retired as a Superintending Engineer from WRD Dept. of the state of Madhya Pradesh having gathered a huge amount of experience in the field of Construction & Maintenance and took over community service as his mission of life. He is the fatherly figure of the Group.

Er. Shri D. C. Jain
Chief Patron

He is a renowned Engineer. He is a retired Superintending Engineer from WRD Deptt. of the state of Madhya Pradesh having immense experience in the field of Heavy & Light Machinery and construction of Dams, Bridges and Roads. He is the one who has taken the initiative to make Gyan Ganga the largest chain of Educational Institutes in central India.

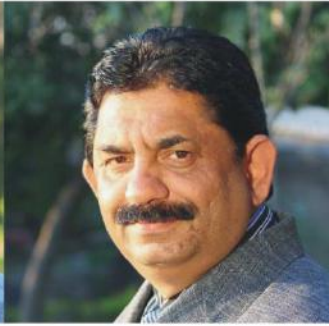

Er. Shri V. K. Jain
Chief Patron

He is an eminent personality in the field of Education, having a total experience of 26 years in the field of School & Collegiate education, Construction & Manufacturing. He is a young multi dimensional person who has done his M.Sc. (Zoology), MA (Economics) and LLB. His visionary and focused approach towards providing Quality Education in the state of Madhya Pradesh can be observed in any of the Gyan Ganga Institutions.

Dr. Rajneet Jain
Chairman

He is M.Sc. in Mathematics and involved in the Garment Manufacturing Business. He is associated with the admission cell and Training and Placement Department of the Group. Under his flagship the Placement Records of the Group is scaling new heights everyday.

Shri Pankaj Goyal
Executive Director

He is a Mechanical Engineer by Profession and having 12 years of experience in managing a technical institution. He is a very good Administrator which makes the institutions run smoothly and efficiently.

Er. Apurva Singhai
Executive Director

He is aged about 39 years, an Engineer in Plastic Mould Technology from CIPET, having an experience of 17 years in multi diversified fields. He is hardworking, focused and resourceful and a well-connected professional who has led several cross-functional / departmental processes, design and implementation. He geared up Gyan Ganga a Well Known and Reputed Brand of Central India with all the constructive as well as productive efforts.

Shri Miny Raj Modi
Executive Secretary

Leaders guiding on the path of Excellence

Dynamic Management

“ People who motivates you, encourages you, boosts your personality with energy & enthusiasm, stand besides you & shelters you through the hard times, are the REAL LEADERS. ”

Anonymous

He is aged about 43 year, Graduate in Business administration and PG in Economics. He is having 14 years of experience in Administration of School and Collegiate Education. His Potential towards developing a Good Infrastructure is second to none and due to this quality Gyan Ganga Group is creating a World Class Infrastructure day by day.

Shri Nitin Jain
Executive Secretary

He is aged about 41 years, a Post Graduate In Management by qualification and has an experience of over 24 years. He started his career at the age of 17 in Hotel business and later he ventured into the field of School Education by setting up a Residential School, and then into Technical & Professional Education by establishing Engineering, MBA & MCA colleges under the brand name of Gyan Ganga in Bhopal & Jabalpur. He is a very focused, fair administrator and a result-oriented person.

Shri Viny Raj Modi
Executive Secretary

His technical caliber with immense experience in teaching, research and administration, has been enlightening the firmament of technical education of the state for last 49 years with eight years of glorious services as Principal of Government Engineering College Jabalpur. With a doctorate in Mechanical Engineering, he has published a number of research papers. The tireless crusader has been a mentor to the academics and administration of the Group with great vision and acumen since 2006.

Dr. Maneesh Choubey
Group Director

With 20 years of experience in research and teaching he was awarded a Doctorate from BIT Ranchi. He is adorning the crown of the Gyan Ganga Group with numerous publications against his name.

Dr. R. K. Ranjan
Principal - GGCT

He is an M.Tech. (Electronics Engineering) From RTM Nagpur University and Doctorate from RGPV, Bhopal. He has done BE in Industrial Electronics from SGB Amrawati University. He has a rich experience of more than 18 years in the field of academics. He has secured 2nd position in the University in his M.Tech. Program and had been awarded silver medal.

Dr. Vinod Kapse
Principal - GGITS

Personalities of Eminence

1st YEAR OF ENGINEERING

“Engineering is a great profession. There is the satisfaction of watching a figment of the imagination emerge through the aid of science to a plan on paper. Then it moves to realisation in stone or metal or energy. Then it brings homes to men or women. Then it elevates the standard of living and adds to the comforts of life. This is the engineer’s high privilege.”

The College offers academic and career advising, tutoring in most subjects and mentoring in order to facilitate success during your first year. Students admitted after 12 Standard (Science) are groomed as budding engineers. Their strengths and weaknesses are identified to make them aware of future needs in engineering profession. Every Year Institute organizes orientation program to make students aware of college campus, staff, laboratories and other facilities available in the institute. Through this event good rapport is established between faculties, students and their parents. The objective of the programme is to formally welcome the newly arrived students to Gyan Ganga family and assist them in starting their academic journey at the institute. The Humanities and allied sciences department is proud to have a highly qualified, dynamic and technologically sound faculty. The fundamental subjects of Engineering are Physics, Chemistry & Mathematics. The laboratories of Physics and Chemistry are well equipped to cater to the students' knowledge in basic sciences with orientation towards engineering concepts. English language proficiency is an integral part of today's working environment which is being taught by qualified and experienced faculty members. The scheme also includes Fundamentals of all disciplines of engineering so that students get exposure and understand the scope of their chosen specialization.

“In the new economy, computer science isn't an optional skill **it's a basic skill**,”

COMPUTER SCIENCE & ENGINEERING

The Department of Computer Science & Engineering has taken charge of the all round development of its students inculcating professional ethics as well as humanitarian values. The Department has been continuously making progress in teaching and R&D activities. All the laboratories are fully fledged with PCs of latest configuration having 34 mbps 1:1 leased line internet connection. The department with its cohesive team of faculty members mentors the students and motivates them to excel in their fields of interest. The Department has highly qualified and well experienced faculty members having many national and international publications to their credit. The department is well equipped with state of art computer laboratories with latest hardware and software. The Department has established Microsoft Innovation Centre, Cisco Networking academy, EMC2 Academic Alliance, Oracle Workforce Development Partner and Pearson VUE Testing Centre to make students Industry ready.

For Making Better Tomorrow!,,

INFORMATION TECHNOLOGY

The Information Technology Department prides itself in providing a solid background in Engineering while providing the freedom to students to pursue their desired focuses. The department aims at establishing strong relationship with the industry so as to bridge the gap between the academia and corporate sector. This industry-academia exposure enables the students to face the challenges of the technical society and create awareness about the future trends of the IT Industry. The department has highly experienced & dedicated team of faculty, who are providing and maintaining high standards of teaching & learning. The department has excellent computing facilities, which include computer systems with latest configurations, servers, multimedia kits, Internet & E-mail facilities.

ELECTRONICS & COMMUNICATIONS ENGG.

The Department of Electronics and Communication is committed to prepare students with a high level of education in Engineering, Technology and Sciences. The aim of the department is to make students competent, creative, social and imaginative professional. It has dedicated and experienced faculty members. The teaching learning process is adopted through interactive lectures, power point presentations, brain storming sessions, group discussions, seminars, online tests etc. Special lectures and guest-lectures for competitive examinations and campus interviews are conducted. Various indoor and outdoor sports and recreational activities along with Industrial Visits (Manali, Nainital, Mysore, Coorg, Bangalore, Chandigarh, Rudrapur etc.) are organized.

The Department has its own IEEE student chapter, Hobby Clubs like Robotics, Music, Sports and Competitive Exams(GATE, CAT). Several cultural/technical fests along with academic seminars and conferences have been organized. It has a good collection of reference books apart from the Institutional Library. It also has a collection of Video Lectures (NPTEL IIT Madras), Digital Books and Notes prepared by Faculty.

The Department is having spacious, ventilated, and air conditioned/ducted class rooms equipped with multimedia projectors for the conduction of theory classes of UG and PG. It has laboratories facilitated with latest hardware and software tools for the conduction of practical sessions for UG Students and research & development activities for PG students. All lecture halls and labs are equipped with CCTV cameras.

MECHANICAL ENGINEERING

The Department of Mechanical Engineering is established in the year 2003 with an intake of 60 seats. In 2011 intake increased to 120 seats and presently the department has an intake of 180 seats.

The department offers B. Tech. in Mechanical Engineering, and M.Tech. Programs in (i) Advanced Production System (18 seats) (ii) Machine Design(18 seats). The department is enriched with senior faculties having long academic, research & industrial experience, state of art laboratories and infrastructures. Continuing Education programs and customized training/ workshops are being organized by industry and academic personnel on regular basis. Various Funded Research Projects and Consultancy projects are also taken up. Students of the department are actively involved in various extracurricular activities and extension activities. A group of students are participating in a national SAEIndia ECO-CART competition and won remarkable prizes.

“Let the future tell the truth and evaluate each one according to his work and accomplishments. The present is theirs, the future, for which I really worked, is mine.”

ELECTRICAL ENGINEERING

ELECTRICAL ENGINEERING (EE) is one of the core branches of engineering studies. Electrical engineering advances the fields of electricity and electromagnetism. An electrical engineer harnesses the power of electrical charge to create a practical and safe energy source. Electricity is an integral component of modern society, used for basic living needs as well as communication, entertainment and in businesses. Electrical engineering focuses on both small and large-scale electricity requirements. Electrical engineers utilise the principles of electricity (mathematical and physical science) to design power grids, computer circuits, software programs and power supplies. A significant area of interest for electrical engineers is electricity generation and distribution. Many of the sub-disciplines of electrical engineering are, however, dedicated to the transmission and processing of information. All electrical engineers, upon graduation, are equipped with an advanced level of programming skills and are required to undertake practical, hands-on work, when building components such as circuits, motors or generators.

“ When we shine we lighten the world, when we think we transform the world, when we stand we regulate the world, since we are the founders of all therefore Our POTENTIAL does not drop across any RESISTANCE. Let us join hands and together enlighten the world.”

ELECTRICAL & ELECTRONICS ENGG.

ELECTRICAL & ELECTRONICS ENGINEERING (EEE) Department has been ever inclined towards creating professionals of tomorrow which can do wonders in this ever changing scenario of industrial evolution while providing cutting edge competency. The Department is continuously making efforts to create such endeavors which will take the students a level up in the present scenario so that we can deliver them more than just an education so that their personality becomes complete in all aspects and flourish in all directions and reach the zenith of their life at earliest. It holds great importance that the students after years of study and trainings achieve their final dream destinations of holding a position for themselves in the industry. The students have been selected in reputed firms including both the Private and Public Sector enterprises, which shows that the students have well achieved their dreams and are also prospering and doing very well.

“Civil engineers are changing the world. They dream up creative, practical solutions that benefit the everyday lives of people and the communities in which we live. They work with smart and inspiring people to invent, design and build things that matter.”

CIVIL ENGINEERING

Civil engineering department was established in 2009. As civil engg is the most demanding branch within the current scenario of the job opportunities, there is no dearth of job in both government departments and the private organization. Wherever you might be, in cities or town you can simply cannot the miss the creation of civil engineers. Therefore, to equipped students with the knowledge of latest equipments and soft ware as per industry needs, the department puts all efforts to make students aware of the latest knowledge and the technology. The department has ultra modern strengths of material labs with UTM, CTM, torsion, impact and hardness testing machine. The department also has fully equipped fluid mechanics lab, material testing lab, engg. Geology lab, transportation lab, survey lab with total station and environmental engg lab

MASTER OF COMPUTER APPLICATION

MBA

“Effective managers live in the present
but concentrate on the future.”

MASTER OF BUSINESS ADMINISTRATION

The Department of Master of Computer Applications under the umbrella of Gyan Ganga Group Of Institutions was established in the year 2006. The educational objective of the MCA program is to enable the students to have a holistic and all round grooming, to be a thorough professional in the field of IT. The postgraduate program in computer applications is essentially aimed at developing a student with excellent programming and system related competencies. The student is expected to possess skills and core knowledge both in hardware and software technologies related to the discipline of computer applications. The department exhibits perpetual guidance and continuous evaluation with the most disciplined work culture flavored with justice

Gyan Ganga Group of Institutions started All India Council for Technical education (A.I.C.T.E.), New Delhi approved Master of Business Administration (two year full time) programme recognized by Directorate of Technical Education (DTE, Bhopal, M.P.) affiliated to Rani Durgawati Vishwavidyalaya (R.D.V.V), Jabalpur. The department makes use of an appropriate mix of pedagogical tools to train students to handle professional responsibilities. These include regular classroom teaching, assignments, presentations, seminars, case study discussions, expert guest lectures, local and out station industrial visit so that strong fundamental and professional skills can be inculcated amongst students.

“Libraries store the energy that fuels the imagination. They open up windows to the world and inspire us to explore and achieve, and contribute to improving our quality of life. Libraries change lives for the better.”

CENTRAL LIBRARY & ADMINISTRATION

Library serves as a resource center and aims to develop a comprehensive collection of documents useful for faculty and students of the institute and provides an efficient dissemination of knowledge. Library aims to be best among engineering college libraries in the state. Library intends to incorporate the latest technology and adopt a user-friendly approach towards students and faculty. Library intends to offer comprehensive services related to dissemination of knowledge. Department short-term goals: To acquire, organize information resources to meet the present and future needs of its users.

Library and Information Centre is in the campus with a floor area of 2000 Sq. M, having a total seating capacity of 300 students at a time. It has a document collection of volumes of reference books, textbooks, project reports, seminar proceedings, back volume of technical journals and non-book formats like CD-ROMS.

Library subscribes technical journals of national and international reputation which cater to the needs of the students, staff and research fellows.

Total collection of 10,221 Titles, 85,699 volumes of books, Encyclopedias, handbooks, dictionaries, Project reports, bound volumes of periodicals, 3000 CD's, 27931 e-Books, Subscription to 293 Print Journals, 275 e-Journals, 34 Magazines & 30 National & Local Newspapers.

TRAINING & PLACEMENT

EXCLUSIVE INDUSTRIAL TIE-UPS

The Training & Placement Office of GYAN GANGA GROUP of Institutions facilitates the process of placement of students passing out from the Institute besides collaborating with leading organizations and institutes in setting up of internship and training program of students.

The office liaises with various industrial establishments, corporate houses etc which conduct campus interviews and select graduate students from all disciplines. The Training & Placement Office provides the infra-structural facilities to conduct group discussions, tests and interviews besides catering to other logistics. The Office interacts with many industries in the country, of which huge number of companies visit the campus for holding campus interviews. The industries which approach the institute come under the purview of:

- Core Engineering industries
- Manufacturing Industries
- Finance Companies
- R & D laboratories, etc
- IT & IT enabled services
- Consultancy Firms
- Management Organisations

PLACEMENT TIE-UPS

TIE-UPS FOR INDUSTRIAL TRAININGS

OUR REGULAR RECRUITERS

OTHER ACTIVITIES INCLUDE:

- Periodic Conduction of IQ tests
- Workshops/Seminar/Guest Lectures on the recent technological developments
- Trains students in aptitude tests, interview techniques, group discussions in co-ordination with Campus Corporate Centre (CCC).
- Notification regarding various competitive examinations
- Organizes Industrial visits
- Industrial Trainings

PLACEMENT SCENARIO IN GYAN GANGA GROUP:

Placement of the students in the right kind of job opportunities is the confirmation of Institute's excellence in related field. National & International companies visit regularly to the Institute for searching fresh talents. Institute has excellent placement record. More than 9000 students have been given the opportunity of their life times to start their career and more than 3500 students have proved their worth and got selected in the various companies visited Gyan Ganga Group till date.

The students, not only of the Gyan Ganga Group, but also of other Technical Institutes of in and around Jabalpur are benefited by the placement drives organized in the campus.

A trendsetter in organizing mega pool/off campus activity, Gyan Ganga has facilitated a huge number of students of the Jabalpur city to get the right start to their career. Many of the Corporates have done first time Campus activity in the State at Gyan Ganga Group and they have confirmed their visit again for the next batches.

Campus Corporate Centre

Campus Corporate Centre is basically a HR Consultation services company which provides services to the corporate and the campuses across the country. We would be also starting IT and IT Enabled services shortly. Inaugurated on 12 March 2011 by Mr. Vishwanath Dubey, Eminent Industrialist and former Mayor, City Corporation, Jabalpur, Campus Corporate Centre was started with the focus of providing services to campus students, faculties and for corporate in the field of Human Resources and Information Technology. The services include Recruitment, Executive search, Employee Background Verification, Training & Development solutions.

Ms. Ruchita Rao
Sr. Manager - HR Services

Capt. Sunil Bharadwaj
Asst. Professor

Mr. Sapan Maurya
Manager - HR & IT Services

ABOUT TRAINING & PLACEMENT CELL:

The Institute has a full-fledged placement office and a dedicated team to look after Placement activities. The Training and Placement cell provides the official support base for placement of Final year students. The support services offered in the form of arranging campus drives, motivate students to go for various technical and soft skills training programs provided by the College and other associated organizations.

The institute is equipped with a centrally air-conditioned auditorium named as SPANDAN for holding Pre-Placement Talk, well furnished rooms for conducting group discussions and interviews and a mini theatre.

The Placement Office is assisted by a committee of Campus co-ordinators, representative faculty members from various departments and students from the under-graduate engineering streams.
